## Israeli army 'deliberately' targeted homes in Gaza

25 people killed, 153 others injured in airstrikes launched by Israel on May 3-6, says Israeli rights group

Abdul Raouf Arnaout

JERUSALEM - Israeli military "deliberately" targeted residential buildings in blockaded Gaza strip on May 3-6, 2019,

an Israeli rights group said in a report Wednesday.

"Israel launched airstrikes and fired shells at more than 350 targets in Gaza, injuring 153 people and killing 25 – including... MORE DETAILS

### 600M Africans go without electricity

Addis GetachewTadesse

ADDIS ABABA - At least 600 million people in Africa lack access to electricity, according to an International Energy Agency (IEA) statement on Wednesday. "In Sub-Saharan Africa,

three out of five people don't have access to electricity," Executive Director Fatih Birol said at the opening of the First Ministerial Forum of the African Union Commission and the IEA in the Ethiopian capital Addis Ababa.

Addressing the gathering that included officials, experts and representatives from various international organizations, he called for innovation and investment to rectify the lack of energy in the region, which he said was "unacceptable... MORE DETAILS

#### Yemeni Houthis hit Saudi airport

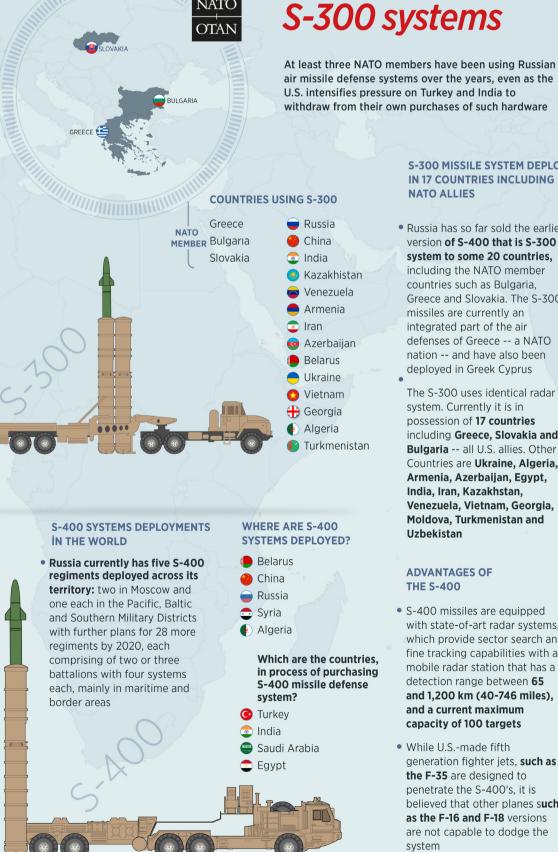

RIYADH - The Saudi-led coalition confirmed Wednesday an attack by Yemeni Houthi rebels on an airport in southern Saudi Arabia. Col. Turki al-Maliki, spokesman for the coalition, was quoted in a statement released by Saudi Press Agency (SPA) as saying: "A hostile projectile fell early on Wednesday at the arrival hall of the Abha airport, through which thousands of civilian passengers pass every day. Al-Maliki described the attack as a... MORE DETAILS

### Russian missile shield long owned by NATO allies

S-300 MISSILE SYSTEM DEPLOY IN 17 COUNTRIES INCLUDING

 Russia has so far sold the earlier version of S-400 that is S-300 system to some 20 countries, including the NATO member countries such as Bulgaria, Greece and Slovakia. The S-300 missiles are currently an integrated part of the air defenses of Greece -- a NATO nation -- and have also been deployed in Greek Cyprus

The S-300 uses identical radar system. Currently it is in possession of 17 countries including Greece, Slovakia and Bulgaria -- all U.S. allies. Other Countries are Ukraine, Algeria, Armenia, Azerbaijan, Egypt, India, Iran, Kazakhstan, Venezuela, Vietnam, Georgia, Moldova, Turkmenistan and

#### **ADVANTAGES OF**

 S-400 missiles are equipped with state-of-art radar systems, which provide sector search and fine tracking capabilities with a mobile radar station that has a detection range between **65** and 1,200 km (40-746 miles), and a current maximum capacity of 100 targets

 While U.S.-made fifth generation fighter jets, such as the F-35 are designed to penetrate the S-400's, it is believed that other planes such as the F-16 and F-18 versions are not capable to dodge the

Operationally, each S-400 battalion comprises of two batteries with four launchers each for a total of 40 launchers on five regiments -- enough to protect two to three major cities. They are designed to be able to destroy all invading aerial objects including airplanes, helicopters, cruise missiles and ballistic missiles
